## Activities for motivation, team building and fun...

### Team Challenges

A range of innovative and fun team building activities that are designed to get staff working together quickly and effectively. Challenge objectives transferable into the workplace include demonstrating the value of group over individual effort, breaking down facades, building trust between people, improving communication, building awareness of the bigger picture, stimulating creativity, working to time constraints and budgetary control. All team challenges are led by an experienced event manager and tutors and all equipment is provided. Some of the most popular team challenges are described below:

#### Masterpiece Challenge

Team members complete sections of a famous Picasso painting which can be hung in the office following the event. This is not as easy as it sounds as they need to collect information to buy paints and work together effectively to produce the best results. Participants do not need to be artistic to join in and the final result can be quite breathtaking with teams amazed at what they have achieved
